

Coordinating Conjunctions II

Name: _____ Date: _____

Question 1: Underline the sentence that is punctuated correctly.

- A. Most millipedes are black in color but some are red, yellow, or brown.
- B. Some millipedes are nocturnal, so they are active at night.
- C. Millipedes have many legs yet they do not move very fast.
- D. Millipedes like to live in dark moist places so some can be found under logs or dead leaves.

Question 2: Rewrite the incorrect sentences above with correct punctuation.

Question 3: Combine these two simple sentences into a compound sentence using a coordinating conjunction and correct punctuation.

A millipede's hard exoskeleton protects its body.
It rolls into a ball if it feels threatened.
