What is school, and why are schools important?

	School is important because you . . .
Build knowledge and skills	• Learn new and important things • Do work that is hard and makes your brain think in new ways
Foster character and relationships	• Learn to treat others well • Use what you are learning to make your classroom, school, and community a better place • **Learn that believing in yourself can help you learn new things and accomplish goals**
Create high-quality work	• Create beautiful and careful work • **Create work that matters to you and to others**
